

Unique Shape, Extraordinary Quality

The Eco-Brick™

Building Products Corp. & Advanced Pavement Technology presents a new shape in permeable pavers for use when implementing permeable interlocking concrete pavement, a superior paving solution that supports stormwater management and business growth.

See back side for more information.

Benefits of Eco-Brick™

- Meets pedestrian slip resistance standards from the Americans with Disabilities Act (ADA) Architectural Guidelines, as well as EPA stormwater requirements
- Provides smooth surfaces with minimal openings to make walking more comfortable
- Allows for rapid removal of stormwater through void openings
- Eliminates standing water for plazas and walkways without sloping
- Maximizes design flexibility by enabling a wide range of creative patterns
- Simplifies maintenance in climates with ice and snow
- LEED points under sustainable sites and material resource credits
