

Brilliant Stone™ -Ground Face

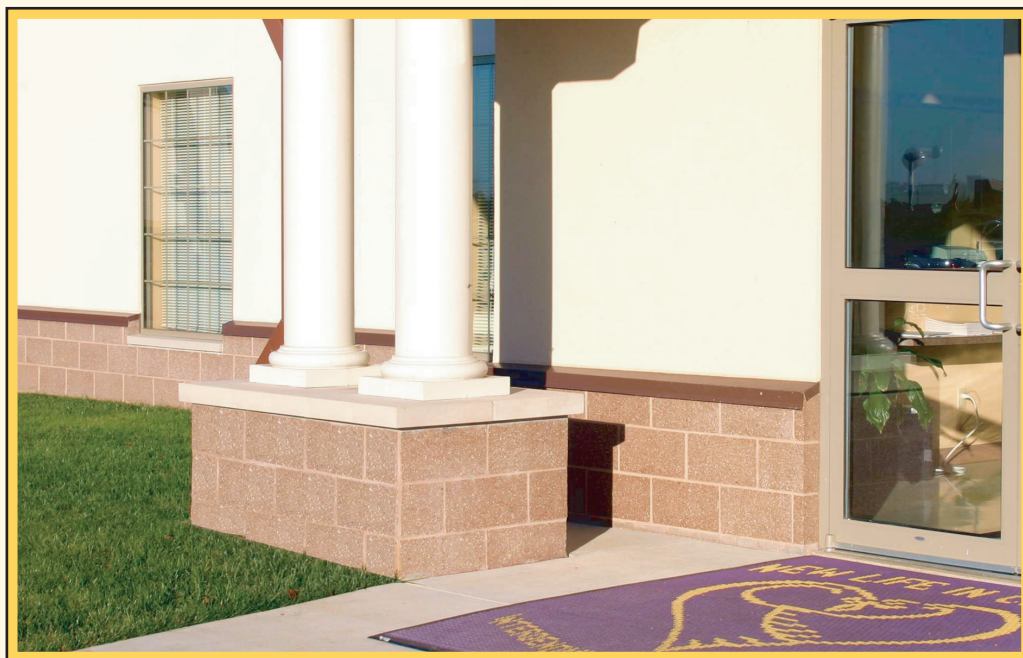

Rich in appearance, ground face units provide a finished look that cannot be duplicated, that is why owners, architects and masons choose Brilliant Stone™. These ground face masonry units showcase the natural beauty and colors of exposed aggregates. Each ground face unit is an integrally colored concrete masonry unit. The exposed face is then burnished to reveal the variegated colors of the natural aggregates.

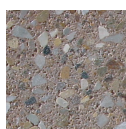

Brilliant Stone™ units are maintenance free, with no need to repaint or refinish.
Produced locally, Brilliant Stone™ will keep your job on time & on budget.
