

UltraBrick™ is a Structural unit, with the unique and rich look of Brick. **UltraBrick™** provides a one-step installation, eliminating the need for an additional brick veneer. This increase in efficiency expedites your project, while providing structural integrity and the distinct look of brick. These benefits will bring your project in on time and on budget.

Load Bearing Structural Veneer

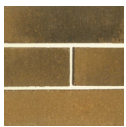

Cure for the common color.....

Looking for specific colors, **UltraBrick™** provides a wide variety of colors and shades to choose from. Our "state of the art" computer controlled manufacturing process insures consistent colors, utilizing polymer based pigments, that resist fading over time. Choose from our standard line of colors or create your own. Building Products and **UltraBrick™** can create unique colors or combinations for your unique job.
